

Breakdown of Costs & Other Cruise Information

Here is the breakdown of costs and additional information that we received from Group Travel Services. One important item to mention is that Carnival has just this month added a new fuel surcharge of \$25 per person for any cruise departing after Feb. 1, 2008. This is due to the rapidly escalating fuel prices.

	<u>Inside Cabin</u>	<u>Outside Cabin</u>
Cabin Cost	\$ 220	\$ 280
Gov't taxes & fees	147	147
Fuel Surcharge (NEW)	25	25
Prepaid gratuities	<u>50</u>	<u>50</u>
Total (per person)	\$ 442	\$ 502

Passports will be required by the time we sail for everyone traveling. Everyone is required to have a valid passport. They no longer accept expired passports on a cruise. Anyone who does not have one needs to start this process soon.

The only thing you will be charged for while onboard the ship is: specialty drinks such as Cappuccino, etc. and soft drinks. Coffee, Iced tea, juice and water are free with meals and there are several self-service drink stations throughout the ship where tea, coffee, lemonade, fruit punch and fresh water can be obtained 24 hours a day. Of course, any purchases of a personal nature, such as gift shop purchases, beauty salon, etc. are not included in the rates above.

Shore excursions can be purchased through the cruise line but are optional. Many people choose just to do their own thing once in port. it is much less to do it this way. Shore excursions purchased through the cruise line average from \$15 to \$300 per person.
